

# T8 FLUORESCENT SYSTEM WARRANTY

*Subject to change without notice.*

The Heart of a Comprehensive System Service Program  
Compare lighting system warranties - you'll see that our warranty offers better coverage, more service options and, more important, peace of mind.

## Technical Consumer Products is pleased to offer the following warranty covering TCP fluorescent lamps and TCP linear fluorescent electronic ballasts.

Technical Consumer Products warrants that lamps and ballasts abide by their respective published specifications and are free from defects in material, workmanship and title.

This warranty only applies when TCP lamps are operated on TCP linear electronic ballasts that have been correctly wired and installed; are operated within the electrical values publicized on the ballast label; used in lighting equipment designed and approved for the application and in environmental conditions (temperature, humidity, and air movement) within the normal specified operating range of the system.

If lamps in the systems meeting the above requirements fail due to factors within the lamp during the initial three (3) years or 10,500 hours of operation, whichever comes first, after the date of purchase, Technical Consumer Products agrees to supply replacement lamps at no charge. This warranty applies to lamps which are operated on a burning cycle of 10 hours/start or more.

If a TCP linear fluorescent electronic ballast fails due to factors within the ballast during the initial five (5) years after the date of manufacture, Technical Consumer Products, at its option, will at no charge either replace the defective ballast, including paying a labor allowance of a maximum \$10.00 per ballast, or refund the purchase price of the ballast.

Operation of this lamp/ballast system in frequently-switched applications (5 or more cycles per day) or in conjunction with automated controls (such as, but not limited to, occupancy sensors) will void this warranty. These lamp and ballast warranties do not apply to failures caused by acts of God, or as a result of any abuse, misuse, abnormal use, or use in violation of any applicable standard, code, or instructions for use in installations including those contained in the National Electrical Code (NEC), the Standards for Safety of Underwriters Laboratory, Inc. (UL), Standards for the American National Standards Institute (ANSI) or, in Canada, the Canadian Standards Association (CSA). Technical Consumer Products reserves the right to inspect failed lamps, and/or ballasts to determine the cause of failure and patterns of lamp usage. The date of purchase and lamp installation date must be verified to validate the elapsed operating hours if a warranty claim is made. If the lamp life is not validated, the lamp date code will be used to establish elapsed burning time based on estimated usage.

The foregoing shall constitute the exclusive remedy of the purchaser and the sole liability of Technical Consumer Products for lamp and ballast warranties. **NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS MADE OR IS TO BE IMPLIED.** In no event shall Technical Consumer Products be liable for any other cost of damages including lost profits, incidental, special or consequential damages.
