TCP is committed to providing high quality fixtures that are the benchmark in energy efficiency. TCP's compact fluorescent fixtures use 1/4 the energy of traditional lighting and produce 75% less heat

EcoVations™ Designer Collection

TCP is pleased to announce that our entire EcoVations Designer Collection is ENERGY STAR approved.

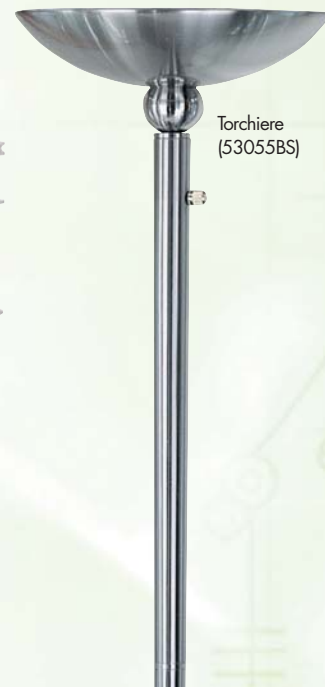

Ceiling Pendant Fixture (DES2X18GUPENDBS)

Wall Sconce (DES1X23GUVALLBS)

GU Outdoor Lantern (52018BSPCGU)

Torchiere (53055BS)

Flush Mount Ceiling Fixture (DES2X18GUFLCLBS)

Vanity Fixture (DES4X13GUBATHBS)

By selecting energy saving decorative light fixtures, you will be working toward reducing your energy bills and significantly reducing greenhouse gases into our atmosphere. TCP's ENERGY STAR qualified light fixtures save more than **\$30 in electricity costs** over the lifetime of each fixture. TCP is proud of our diversified selection of ENERGY STAR qualified light fixtures.

ENERGY STAR® Decorative CFL Fixtures

All of TCP's lamps and fixtures have undergone rigorous testing as required by the ENERGY STAR 4.2 Residential Light Fixture program. In order for the fixture to earn the ENERGY STAR it must pass various photometric, electronic, and life tests. New to the ENERGY STAR 4.2 specification is the ACTV test (Accelerated, Cycling, Thermal Voltage Stress test) for GU-24 based lamps, this is a way to eliminate inadequate circuit designs, manufacturing problems, or defective components.
