# LED Outdoor Insect Control

Enjoy the outdoors again with TCP's LED BugTrap.

**BUGTRAP COVER**  
Adds shade to further optimize the performance of the ultraviolet LEDs

**TITANIUM DIOXIDE (TiO<sub>2</sub>)**  
Photocatalytic reaction of the titanium dioxide (CO<sub>2</sub>), which mosquitoes can't resist

**ULTRAVIOLET (UV) LEDs**  
Optimized ultraviolet wavelength to attract mosquitoes

**WATER RESISTANT HOUSING**  
Protected for outdoor use

**HIGH SPEED FAN/ SILENT OPERATION**  
Traps mosquitoes efficiently and quietly using a low-noise, low-power, high speed fan and motor

**MESH CONTAINER**  
Catches mosquitoes and kills them by dehydration

**PROVIDES ONE ACRE OF INSECT CONTROL**

## Reasons to choose the LED BugTrap from TCP

- Up to one acre of coverage
- Low power consumption - uses high efficiency LED's
- Environmentally friendly
- Easy to clean and maintain
- 9.6 watts
- Product dimensions (10.3" x 13.3")

## Ideal Applications

- Decks
- Patios
- Greenhouses
- Farms
- Stables
