

Select Series General Purpose Strip Retrofit Kit

Product Specifications

TCP's Select Series General Purpose Strip Retrofit Kits are designed to easily replace the fluorescent lamps and ballast in an existing fluorescent strip fixture with an integrated LED lighting solution. The universal design fits most 4.25" and 5.25" wide T8/T12 fluorescent strips.

These kits significantly reduce energy consumption compared to the existing fluorescent systems, providing instant energy savings along with the ability to take advantage of potential utility rebates. A long 50,000 hour rated life significantly decreases maintenance labor and material costs over the life of the system.

TCP's Select Series General Purpose Strip Retrofit Kits incorporate a ribbed, frosted white diffuser lens to protect the LEDs and minimize glare, while delivering bright, uniform light.
